

# Up your game with Microsoft Power Platform Center of Excellence

The Microsoft Power Platform Centre of Excellence (CoE) is a collection of components and tools that are designed to help fast track your strategy for adopting and supporting Microsoft Power Platform, with a focus on Power Apps, Power Automate, and Power Virtual Agents.

Creospark will help you drive the first step in fostering greater creativity and innovation across the organization by empowering business units to digitize and automate their business processes, while maintaining the necessary level of central oversight and governance.

## Why does your business need a Centre of Excellence for Power Platform?

### Automate your business processes and increase service delivery

#### Challenge

Many organizations use manual process without automated workflows with potential data loss

- Many use of Excel, Word and emails, this can cause loss of requests and data consistency
- Redundant costs of current solutions and upgrades
- Siloed delivery and utilization of information and analytics solutions, resulting in
  - Untrusted sources of data
  - Confusing results
  - Lack of traceability

#### Opportunity

Transform these manual processes into a streamlined automated workflow

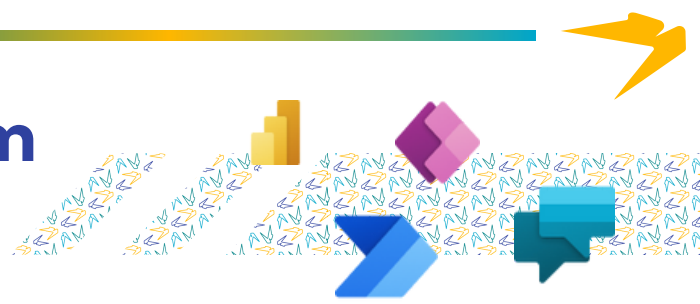

- Increase business unit adoption of automated process and ease of use
- Speed time to innovation
- Increase productivity
- Accelerate quality and speed of requests
- Improve reporting using Power BI
- Become cost efficient while producing improved ROI

## Power Platform Solution

The implementation of Power Platform Center of Excellence will drive the right business outcomes with accelerated pace

- Integrate cloud-based and on-premises data with purpose-built security Automate and innovate on the frontline of business. Enable those closest to business problems to solve the challenges they face every day
- Reduce manual, repetitive, time-consuming tasks, and enable your team to focus on work that matters Centralization drives consistency and control
- Consistent Data and Governance
- High user adoption via simple user interfaces
- Reusability through recommended patterns and practices drives cost down
- Standardized tools and processes build quality and efficiency
- Sets a foundation to showcase the “Art of the Possible” with Power Platform allowing for continuous innovation and added features
